

REGIO.DIGI.HUB - Regional Development Digital Education HUB

Learning, Teaching and Training Activities

The **3-days training course** was organized in **Greece by Atlantis, in Thessaloniki** from September 5th to 7th for an enriching experience. It was an integral part of the general objectives of the project. The training was particularly important for **all professionals involved in the project**, but the added value was the opportunity offered to them for: *further professional development; involvement in transnational learning mobility*, which broadened their horizons and extended their capabilities, motivating them for further work. In the **E-Learning Mastery** Partners received comprehensive training on harnessing the power of our cutting-edge e-learning platform, equipping them with the skills and knowledge needed for the digital era. A great opportunity was given with the **study visit to the University of Macedonia**, where the Partners had the privilege of engaging in a spirited discussion with *Professor Mr. Konstantinos Fouskas* and *PhD candidate Ms. Olga Pachni-Tsitiridou*. The discourse revolved around the pivotal subject of digitalization, offering a profound understanding of its impact and potential.

Project number: 2021-1-R001-KA220-VET-000028118

The developing of REGIO.DIGI.HUB Academy

With the current state of the world, it is more important than ever to have access to quality online education from the comfort of your own home. That's why our partner Budakov Films has dedicated much of its efforts to developing a **MOODLE-based e-learning platform**. Our REGIO e-learning platform features engaging content and innovative tools to help learners of all ages and backgrounds to acquire new knowledge and skills. Whether you're a student, a professional looking to upskill, or simply curious about the latest greentech or AI-based innovations, our platform will have something for you. **It is not just a tool**, but a community of learners who are passionate about growing and learning.

For all those who work in the **regional development sector**, for those who want to learn more about new developments in the *circular economy, green technologies, social entrepreneurship, smart specialisation* and much more. Here is the **free access the Training Platform**

Multiplier Events – 1st round

Multiplier Event in Serbia

The first Multiplier event within the Regio.Digi.Hub Project was held in Serbia on **12th of June 2023!** Now, finally, **more than 20 trainers** from development agencies can know what we have been working on for the past year and a half. We have presented training materials on 15 current topics that will soon be available on the project platform. We are improving our knowledge and skills in order to be even better trainers.

Partners:

The Training materials and Training course are done!

The practical manual and the applicable manual contains 3 modules that cover 15 regional development skills for the three areas that define workers in the regional development sector as “regional development skills”. This training manual is intended for staff and trainers in VET providers, workers in the regional development sector, as well as other stakeholders such as universities, IT companies, local public institutions, etc. The three areas defining workers in the regional development sector are:

- **Smart Specialization Strategies**
- **Green and Digital Transformation**
- **Innovation Entrepreneurship**

Multiplier Events – 1st round

Multiplier Event in Romania

The Multiplier Event was held on **June 19, 2023** at Daria Guest House in Agapia, Neamt County, Romania. The event gathered 21 participants from both the **public and the private sector** in the North-East Region of Romania, the majority coming from SMEs and nonprofit organizations. The first in its series, the Multiplier Event ensured an optimal framework for an **intersectoral approach**, facilitating a productive, **open dialogue** between present stakeholders.

Multiplier Event in Greece

It was held on **20th of June 2023** at the IDEA Training Centre in Thessaloniki. The event was a great opportunity for professionals, students, and stakeholders to come together and exchange ideas. With approximately 22 participants in attendance, the event successfully fostered collaboration and knowledge sharing.

It served as a valuable opportunity for participants to strengthen their networks, explore the innovative approaches, and contribute to the advancement of regional development in Greece.
